PROFILE SUMMARY

Full Stack Developer with 3 years of experience building scalable web and mobile applications using the MERN Stack and React Native. Skilled in developing REST APIs, managing state with Redux and Context API, and integrating Firebase for real-time features and authentication.

Familiar with native build tools like Xcode and Android Studio, and experienced in publishing apps on both the App Store and Google Play. Proficient in CI/CD, Git, and cloud deployment using AWS and Google Cloud.

I'm passionate about writing clean, maintainable code, optimizing performance, and enhancing user experience. I'm currently open to new opportunities and actively looking to relocate — whether within India, the UAE, or internationally.

WORK EXPERIENCE

- Ditinus Technology Pvt. Ltd** Mohali, Punjab
MERN Stack Developer December 2023 – September 2025
 - **End-to-End Project Ownership:** Led end-to-end development of scalable MERN stack applications, including architecture design, feature implementation, deployment, and optimization. Integrated third-party APIs, such as Stripe and Razorpay, for secure payment processing. Implemented Firebase for real-time data synchronization, user authentication, and push notifications.
 - **Feature Development & Optimization:** Delivered new modules and enhanced existing functionality across multiple live projects, improving performance, scalability, and user experience through clean, modular code and efficient state management (Redux, Context API).
 - **Project Leadership — React Native:** Served as Project Lead for a U.S.-based React Native application enabling real-time communication. Managed product meetings, coordinated with clients and cross-functional teams, and oversaw delivery timelines. Ensured smooth feature rollout and maintained app performance and reliability across both platforms.
 - **Cross-Platform Mobile Development:** Contributed to the development of cross-platform React Native applications, focusing on performance optimization, UI consistency, and seamless deployment across Android and iOS. Familiar with native build tools such as **Xcode** and **Android Studio**, and experienced in the **App Store** and **Google Play Store** deployment processes, including consumer-facing applications.
 - **Cloud Deployment & Maintenance:** Optimized AWS-hosted environments for MERN applications, handling CI/CD pipelines, version control (Git), and routine maintenance for high availability and reliability.
 - **Team Leadership & Code Quality:** Mentored junior developers by conducting code reviews, providing technical guidance, and promoting clean, maintainable coding practices to ensure consistency and quality across projects.
- Bridgeon Solutions LLP** Calicut, Kerala
Software Developer (Intern → Full-Time) Oct 2022 – Nov 2023
 - **Full-Stack Web Development:** Developed and maintained responsive web applications using the MERN stack, improving data flow and performance. Transitioned from intern to full-time role based on strong performance and technical growth.
 - **API Design & Integration:** Designed and implemented RESTful APIs using Node.js and Express, integrating MongoDB and React-based frontends to enhance efficiency.
 - **React Native Development:** Contributed to mobile app development using React Native, focusing on UI consistency and smooth backend integration.
 - **Internal Projects:** Built internal HRM and project tracking tools emphasizing scalability, modular components, and clean architecture.

SKILLS SUMMARY

- **Frameworks & Libraries:** React.js, Next.js, Express.js, NestJS, Shopify (Liquid, Theme Customization), WeWeb (No-code Platform), Redux, Zustand, Recoil, JWT, Socket.io, Tailwind CSS, Nativewind, Bootstrap, MUI, Twilio, Stripe.js, Razorpay, React Native (Android, iOS, Web), Expo
- **Programming Languages:** JavaScript, TypeScript, Python, SQL, NoSQL, Bash
- **Environments:** Node.js, Web, Linux, Windows
- **Soft Skills:** Leadership, Team Collaboration, Time Management, Problem Solving, Critical Thinking
- **Tools & Databases:** Git, Postman, Firebase, MySQL
- **Cloud & Deployment:** AWS (EC2, S3), Vercel, Google Cloud, Cloudinary, SMTP, Xcode, Android Studio, Play Console, App Store
- **Languages:** English, Hindi, Arabic, Malayalam

PROJECTS

1. Web Applications

- **CRM System for Booking Management (Millwoods Travels CRM, Millwoods Travels)**: Served as a core frontend team member in developing a comprehensive CRM web application for a travel service company, featuring a dual-system architecture — a globally accessible booking interface for customers and a private, role-based CRM for authorized staff. Implemented secure authentication, dynamic dashboards, and real-time lead and task management, enhancing efficiency and user experience across departments. **Tech Stack**: React.js, TypeScript, Redux, Tailwind CSS, Firebase, AWS @Ditinus
- **Online Appointment Booking System (T-BROS Auto Detailing)**: Developed a full-featured appointment booking platform for a car detailing service with secure Stripe payment integration, dynamic scheduling, and an admin dashboard for managing bookings, clients, and payments. Optimized front-end performance and implemented robust API communication between React and Node.js services to ensure reliability and scalability. **Tech Stack**: React.js, TypeScript, Redux, MUI, Node.js, MongoDB, Stripe.js @Ditinus
- **Professional Services Booking Web App (Hansen & Company)**: Developed a responsive web platform for a legal services company offering trusted client solutions through online appointment bookings. Built using Next.js, React, Tailwind CSS, and Axios to enable users to explore services and schedule appointments seamlessly. **Tech Stack**: React.js, Next.js, Redux, Bootstrap, Tailwind CSS @Ditinus
- **AI Image Editing & Background Removal Platform (Tsour)**: Developed an AI-powered image editing platform that enables users to create and enhance images with background removal and editing features using the Potoroom API. Implemented social authentication (Google and Facebook login) and a premium access system for advanced editing tools. **Tech Stack**: React.js, Tailwind CSS, Redux, Context API, Potoroom API @Ditinus
- **Corporate Landing Page Platform (cyberace.ca, ditinustechology.com)**: Developed and deployed a multi-domain corporate landing page platform with SEO-optimized architecture, fast client-side routing, and dynamic dashboards. Implemented reusable React components and modular layouts to ensure scalability, performance, and maintainability across multiple business websites. **Tech Stack**: Next.js, React.js, Redux, Tailwind CSS @Ditinus
- **Perfume E-commerce Platform (Shopify Store)**: Built a responsive e-commerce web application for a perfume brand using Shopify, focusing on delivering a smooth and engaging shopping experience. Developed dynamic vendor listing pages, product search functionality, promotional banners, and categorized product listings. Optimized the UI for performance, accessibility, and responsiveness across all devices. **Tech Stack**: Shopify, Liquid, JavaScript, HTML, CSS, Tailwind CSS @Freelance

2. Mobile Applications

- **Real-time Communication App (View on Play Store)**: Built a cross-platform mobile app featuring real-time video calling (Zego), social post sharing, coin-based PayPal transactions, and VOIP support for iOS. **Tech Stack**: React Native, Zego, PubNub, Firebase, PayPal API, VOIP, Nativewind @Ditinus
- **HRM App (View on Play Store)**: Designed and developed the complete front-end for an HRM app with modules for attendance, leave, payroll, and announcements, integrated with real-time push notifications. **Tech Stack**: React Native, Redux, Firebase Cloud Messaging, Nativewind @Ditinus
- **Restaurant Order Management App (View on Play Store)**: Developed a restaurant order management app with real-time tracking and notifications. Revolutionized native modules in Swift (iOS) and Java (Android) to enable continuous alert ringing for new orders until acknowledged. Deployed as a scalable multi-client solution. **Tech Stack**: React Native, TypeScript, Redux, Nativewind, Firebase, Swift, Java @Ditinus
- **Order Management App (Mobile App)**: Contributed to the development of a Flutter-based order management application, building the entire UI including all screens, navigation flow, bottom tab bar, and core business functionalities. Focused on creating a smooth and intuitive user experience for managing and tracking customer orders efficiently. **Tech**: Flutter, Dart, Firebase, REST APIs @Ditinus

EDUCATION

- **University of Calicut** Malappuram, Kerala
Bachelor of Commerce in Finance June 2019 – November 2022

HONORS AND AWARDS

- Rising Star Award – December 2024 @Ditinus Technology Pvt. Ltd
- Employee of the Month – February 2025 @Ditinus Technology Pvt. Ltd
- Employee of the Month – June 2025 @Ditinus Technology Pvt. Ltd
